

## **Logistics Management/ Contracting**

**Q.** What is the range of contractor services that are needed?

**A.** The general answer for this was of course broad ranged. Services needed depended on the scope of project—sometimes broad, at times very specific skills are called for.

**Q.** What are the background requirements for contractors?

**A.** This has to take into account the specifics of the particular job, and also the general requirements all contractors must meet—for example security clearances.
